Helene 2024: outage duration by county, observed and predicted

The prediction comes from a model trained on the other 8 hurricanes

Observed (EAGLE-I)

Predicted, hurricane held out

Hours with at least 10% of customers out

- under 1 h
- 1–6 h
- 6–24 h
- 1–3 days
- 3–7 days
- over 7 days
- not in the sample
- storm track

354 counties

Rank correlation between the two maps: 0.86

Same class: 49%
Within one class: 84%
Predicted lower: 36%
